

Managed Services

Expert IT support tailored to your business needs

KubeNet[®]
Your Trusted Technology Partner.

What are KubeNet's IT Managed Services?

KubeNet's fully managed services are comprehensive solutions provided by our IT experts who take care of all your technology needs. We handle everything from hardware and software to security and support. This can include proactive monitoring, system maintenance, troubleshooting, data backups, cybersecurity measures, ongoing technical support and more.

With our managed IT services, you can focus on your business while our dedicated team ensures your systems run smoothly, keeps them secure, and provides ongoing assistance whenever you need it. We essentially become an extension of your business - saving you time, reducing headaches, and ensuring your technology is always up to date and working efficiently.

Why choose KubeNet as your Trusted Technology Partner

In the increasingly fast-paced and complex world of technology, a growing number of businesses are turning to managed service providers to help them manage their evolving IT & infrastructure landscape. Our managed service solutions helps you get the most out of your devices, software, and network connectivity as you build towards your business goals.

Whether your business requires co-managed support for your in-house IT team or you need an experienced technology partner to take full responsibility for your IT & infrastructure support, you can trust KubeNet to provide the level of support, expertise, and professionalism to keep your business running smoothly.

Our Process, Your Success

At KubeNet we pride ourselves on providing a tailored solution that works for your business. Our process allows us to get to know your business and understand what's truly important to you - allowing us to deliver Managed Services that work towards your business objectives.

Our experienced team will guide you through our discovery phase to fully understand and make recommendations around your IT infrastructure, ensure a smooth onboarding process, and provide ongoing expert support whenever you need it.

Ready to take your IT to the next level? Our dedicated team are here to help.

Co-Managed vs Fully Managed IT Support: Making the Right Choice

Co-Managed Support gives your IT team the tools they need to grow your business and take the lead with your IT strategy, with the benefit of KubeNet's expertise, resources and support being there when and however you need us. Let us do the heavy lifting while you concentrate on what's most important to your business.

- 🎯 Maintain Control of your IT strategy and team
- 🎯 Scalable - When you need us, we're there.
- 🎯 Manage costs by utilising our team of experts
- 🎯 Let us do the heavy lifting while you focus on key initiatives and projects.

Fully Managed IT Support is a comprehensive solution for all your IT needs. With fully managed IT services, our team become an extension of your business, taking care of everything; from monitoring your systems to providing round-the-clock support and even planning for the future.

- 🎯 Avoid headaches - we take care of all your IT needs
- 🎯 24x7 Monitoring, Management and Support
- 🎯 Save time and money - we become an extension of your business so you can focus on your goals

Effortless Compliance and Audit Fulfilment

As your Managed Service Provider KubeNet can guide, support and work in partnership with you in achieving and maintaining compliance or audit standards. We understand that, increasingly, your customers, insurance companies and banks require a growing volume of evidence and compliance that demonstrate the security of your infrastructure. We support these requirement with full audit trials, robust cyber security measures, regular assessments, and proactive 24/7 monitoring.

By working with KubeNet, you can be safe in the knowledge that have a trusted IT partner working with you in achieving and maintaining all applicable standards and regulations.

The Benefits of a Managed Service Provider

- 🎯 **24/7 Support:** In the rare event where things go wrong, our expert team are there for you when you need us most.
- 🎯 **Renewed Strategic Focus:** By entrusting your IT to KubeNet, you'll have more time to focus on your other business objectives.
- 🎯 **Flexible and Agile:** Because we tailor our Managed Service around your business, our solution can grow and evolve alongside your company, supporting your success.
- 🎯 **Enhanced Reporting:** Because we provide 24/7 monitoring and management, we can provide insightful reporting that provides key business insight and aids strategic decision making.
- 🎯 **Cost Effective:** Working with an MSP can allow you to more effectively manage your IT budget, saving you time and money.
- 🎯 **Secure and Compliant:** Our robust cyber security measures and proactive monitoring keep your business safe and compliant.
